

2021 Community Benefit Report

As a community supported, non-profit organization, Phelps Memorial Health Center re-invests its earnings after expenses back into the community. We provide care to the poor and underserved through our Financial Assistance program. Other community benefits include injury and illness prevention, early detection of disease and offering social aid. All year long, the Phelps Memorial Team reaches out to the community in a variety of ways to cultivate a healthy place to live and raise families. The Phelps Memorial Foundation grants funds to non-profit organizations to serve the health and safety needs of our community.

Community Health Needs // \$34,934

Phelps Memorial Health Center (“PMHC” or the “Hospital”) has performed a Community Health Needs Assessment to determine the health needs of the local community. Data was gathered from multiple well-respected secondary sources to build an accurate picture of the current community and its health needs. A survey of a select group of Local Experts was performed to review the prior CHNA and provide feedback, and to ascertain whether the previously identified needs are still a priority. Additionally, the group reviewed the data gathered from the secondary sources and determined the Significant Health Needs for the community.

Assessment Top 7 (2020-2022)
