

ANKLE BRACHIAL INDEX TEST (ABI)

APPOINTMENT:

___/___/___ @ ___:___ am/pm

Re-schedule/cancellations:

308.995.3305

Please arrive at the hospital 15 minutes prior to your appointment to check in.

What is an ABI examination?

An ABI exam measures the pressure in the legs.

How long does the test take?

An average length of time would be 30 minutes.

How is the test done?

Blood pressure cuffs are placed on both arms and ankles and pressure readings are obtained at rest. A hand held instrument will then be moved gently over the area.

Preparation

There is no preparation needed for your exam.

Results

A specialist will evaluate the test and prepare a report to be sent to your doctor. It may take several days to receive this report from your doctor.
